Tilmann Schneider,
RC Leipzig, Germany

Frohes Fest

Christmas actions

- Einsingen
(Singer training)
- Glühweinverkauf
(glogg selling)
- Weihnachtskalender
(Advent calendar)

Exchange Programme

Our club encourages and supports international exchange students and scholars and takes them to host families. They regularly report this in the club meetings. Currently we have a Taiwanese student as part of a global grant with us.

Roland Schubert
Head of Programme

Hauptschüler Scholarships

For 9 years, the club has been supporting *Leipziger Hauptschüler*. The most active of all the main school classes in the city are honored in an annual ceremony. About 20 pupils receive scholarships for each school year. Criteria for selection are, above all, the commitment, despite comparatively bad social or family background conditions. The selection is made by the teachers. Special organized excursions with e.g. Sponsors round off the project. Costs annually approx. € 11,000.

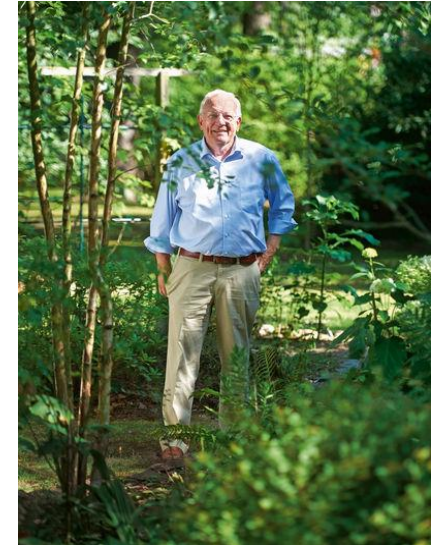

Scholarship awarding Ceremony by the Head of programme, Jens Kühne, RC Leipzig

Clean water projects

Clean drinking water and consequent wastewater treatment are often still underestimated conditions for health and acceptable quality of life in disadvantaged societies.

Within the framework of a global grant, pilot projects for water filtration and biological wastewater treatment in African countries are supported.

Scheduled: € 160,000 as Global Grant
“

Peter Fritz
Coordinator of the programme
together with „Wasser ohne Grenzen
“

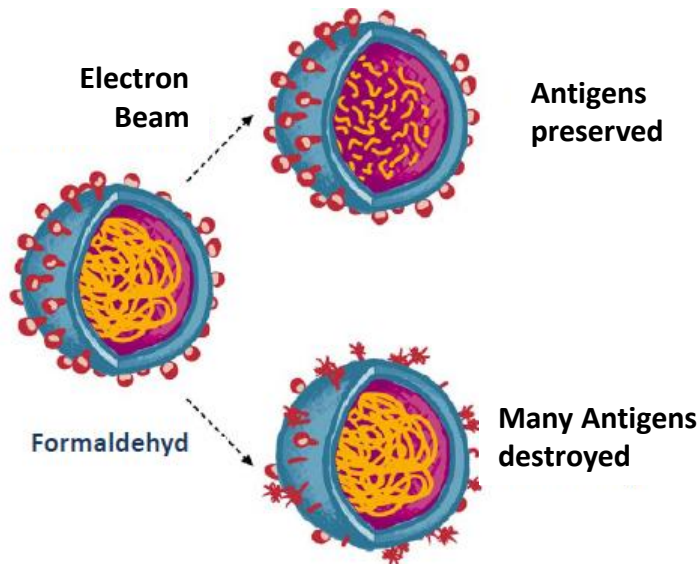

Clean water projects

End polio now initiatives

The most comprehensive global aid project of Rotary International is the fight for the worldwide eradication of child libel by promoting polio vaccination in problem countries. The club supports this through the purchase of special stamps and is affiliated with the Leipzig Fraunhofer Institute, in which a novel vaccine inactivation plant is created, which guarantees cost-neutral know-how transfer for the polio vaccine. The project is funded by the Bill and Melinda Gates Foundation.

Sebastian Ulbert
Coordinator of the
Programme
